

CONSTITUTIONAL PARTY OF KARNIA-RUTHENIA

Letter of Public Presentation

Founded on 25 April 2016, we were the oldest political party in Karnia. We achieved to have elected representatives for two chairs at the former Imperial Council of Karnia and the Royal Diet of Ruthenia. The last President of the Imperial Council was a member of this party. The political momentum changed and we went to the shadows, but once again, we come to show the Empire our values.

We are traditionalists. We would like to bring back the values of Respect, Honesty, Integrity, Manners and Justice. Our main aims are to preserve and support our languages, our vast intellectual heritage, our soon-to-be historical traditions and our unique identity as a multicultural and transcontinental micronation.

Democracy

We believe in a guided democracy, we believe we must create a non-liberal state that does not reject the fundamental principles of liberalism such as freedom, and we could list a few more, but it does not make this ideology the central element of state organisation, but instead includes a different, special, national approach.

Economy

We are skeptical of the neoliberal economic policies that are usually promoted. We advocated for a more interventionist policy for economics due the nature of micronationalism and its limited possibilities. We need to establish public works job programs, pensions, minimum wage and cash gifts to have a strong economy.

Foreign policy

We must form alliances with right-wing micronations, republics or monarchies, especially in Europe, to accomplish our interests for influence and an aristocratic way of life among the most renowned micronations in activity. We need to analyze with caution the demand for naturalization, because not every person who wants to become Karno-Ruthenian deserve it! Only those who respects and respects our values must be among us, as citizens or allies.

Domestic policy

Our society must be united under common principles. Christian values, Respect, Honesty, Integrity, Manners and Justice. To achieve this state of art, we must refuse Marxist ideology that led to the death of tens of millions and ruined the lives of hundreds of million, we need to refuse globalism backed by Soros, we need to refuse the weakness of politicians that only promoted the erosion of democratic institutions, we need to change!
